Rugged Ridge 

Omix-ADA

A FEW WORDS ABOUT PRODUCT SAFETY

The Omix-ADA®, Rugged Ridge®, Outland Automotive® and Alloy USA® brand products illustrated in this catalog are generally intended to increase the utility and enjoyment of your off-road capable Jeep® or street rod. We hope this catalog will help acquaint you with our featured products as well as the broader offerings in each of our product families. Before installation, please take a moment to review the safety information and installation instructions accompanying your product. Safety information for particular products is summarized in this catalog but is not intended as a substitute for your review and understanding of actual product instructions and warnings! Important safety information is generally preceded by one of three signal words indicating the relative risk of injury. The signal words mean:

⚠ WARNING

A hazardous situation which, if not avoided, could result in death or serious injury. **You CAN be Killed or Seriously Hurt if you don't follow instructions.**

⚠ CAUTION

A hazardous situation which, if not avoided, could result in minor or moderate injury. **You CAN be moderately HURT and also may suffer property damage if you don't follow instructions.**

⚠ NOTICE

Careful attention is required to this instruction or operation but does generally not relate to personal injury. Damage to your product or other property may result if you don't follow instructions.

We hope you enjoy your Omix®, Rugged Ridge®, Outland Automotive® and Alloy USA® purchases and are here to help if you still have questions after reviewing this safety information and instructions. See Customer Service contacts included with your Limited Warranty.

PROP. 65 INFO FOR CALIFORNIA RESIDENTS:

⚠ WARNING

California Prop. 65
These products contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

JK PERFORMANCE VENTED HOOD

Remove the heat and maximize your engine performance with the new Performance Vented Hood from Rugged Ridge. Made of stamped steel and a factory inner core, this hood fits like the original yet allows more heat to escape from the engine compartment than other hoods on the market today. The SRT® inspired design gives a great aggressive look. Vents are removable to make it easier to paint. Uses factory attachment points and most aftermarket accessories will simply bolt into place. Got Heat? You need this hood.

ALSO AVAILABLE PAINTED IN
YOUR FACTORY JK COLOR!
SEE PG. 39 FOR DETAILS.

JK HURRICANE FLAT FENDER FLARES

Initial concept sketches

The process continues using clay, hand modeled directly on the body.

Finalizing clay model

3D scan of clay model for CAD refinements.

CAD software used to prepare design for manufacturing.

Rapid Prototyping for testing and fitment

Jeep® enthusiasts can now get that aggressive off-road look with the newly designed Hurricane Flat Fender Flares by Rugged Ridge. This design was inspired by the 1941 Willys MA. The double bolt pockets provide a new modern twist to classic flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black). Constructed of durable injection molded TPE material, the flares rest high on the vehicle to provide extra clearance for wheels while on trails. Backed by an industry leading 5 year limited warranty, the Hurricane Flat Fender Flares will really set your JK apart from the crowd!

ALL TERRAIN FLOOR LINERS

The only floor liner with patented "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patents D627,285 & 8,163,369.

Chevron shaped raised pattern channels water and dirt away from shoes & clothing.

Special raised reinforced heel area allows easy foot movement while providing durability.

High perimeter wall provides maximum protection & water retention

Rolled reinforced edges provide added strength & finished look

2-3 Times the tread height of regular vacuum formed liners

Exclusive self sealing floor hook attachment keeps moisture out while securing the liner

CENTER CONSOLE ARMREST PAD FOR 11-14 WRANGLER

This easy to use arm rest pad/cover from Rugged Ridge® provides protection and comfort all in one! Constructed of heavy duty neoprene (wet suit material) with an added layer of padding for the arm rest, this slip on cover provides an extra soft place to put your arm while driving. Since it covers the entire top of the arm rest, this cover also provides added arm rest protection from pet claws, dirt and sticky fingers. Installation is easy with an elastic band; no drilling or tools required. Black Neoprene compliments your vehicle's interior and will match custom fit Neoprene seat covers. Limited three year warranty.

CUSTOM FIT NEOPRENE SEAT COVERS

Protect your Jeep's® interior with these Custom Fit Neoprene Seat Covers from Rugged Ridge®. These covers are constructed of durable 100% neoprene with no filler fabrics creating the best fitting, longest lasting neoprene seat cover available. Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently reupholstered.

Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. All seams have been double reinforced for strength and a special backing fabric is used on the seams for added protection against rips and tears. Available in black on black, grey on black, red on black and tan on black to complement virtually any Jeep® interior.

RUGGED RIDGE® CARGO SEAT COVERS

Protect your seats and increase interior storage with our NEW Cargo Seat covers! Constructed of heavy duty 600 denier polyester fabric with a special PVC liner on the seating area, these seat covers provide great protection from water, dirt and spills while giving your Jeep® a great look. Each cover has been specially designed with special elastic and Velcro straps to optimize the fit on your original equipment or aftermarket seat. The back of the cover incorporates 5 multi-use pouches, plus one sunglass pouch with elastic tool holding loops, and one knife / multi tool pouch that can also be used for I-pod® and cell phone storage. Each of these 7 pouches are easily removable and provide the needed storage every Jeep is lacking. Front Cargo seat covers are sold individually and are available in two colors (Black and Tan). Front Cargo Seat Covers are universal fit and fit most Jeep® applications from 1976-2014. They can be used with side air bags on 2007-2014 JK models.

RUGGED RIDGE® SEAT BACK TRASH BIN

The new seat back removable trash bin from Rugged Ridge® makes it easier to "Pack it in, Pack it out". The easily accessible bin attaches to the headrest for ease of use. Its 700 cubic inches of storage allows you to collect 3 gallons of debris, so you can keep the wilderness wild and the trails open.

Seat Back Trash Bins 	Part #
Seat Back Removable Trash Bin by Rugged Ridge, Black, Universal Application	13551.40

 Calif. Residents: See Prop. 65 Warning on Page. 2

POWERTOP™ BY RUGGED RIDGE®

Operation of the top is extremely easy and effortless. From the driver's seat you simply unlatch the header and (while your foot is on the brake and key in ignition) push the switch. Down it goes! That's it!

The kit has everything needed for a complete installation including the soft top, frame, door surrounds, motor, hydraulics and wiring. Installation requires that you reuse the factory header and rear tailgate bar. One kit fits all years of 4 door Wrangler!

The top is constructed from premium sail cloth fabric and includes a zip-out removable DOT approved 30 mil rear window with 31% smoke tint.

Rugged Ridge® is excited to announce the first ever true convertible top for the 4 door JK Jeep® Wrangler. No more struggling to get your soft top up and down. This revolutionary soft top design automatically goes up and down without you even getting out of the vehicle. Our patent pending design allows the top to be lowered or raised in seconds by unlatching two header latches and the simple push of a button! In development for over a year, the engineers at Rugged Ridge® have created a heavy duty frame system that folds up and over your factory roll bar therefore making the "push button" design possible. The Power Top Kit fits all 2007-2013 four door Wranglers and comes complete with heavy duty sailcloth fabric, 31% tint 30 mil rear window glass, power top frame, hydraulics, wiring harness and an in-depth installation packet. Everything you need to make your JK a true convertible top! Patent Pending.

PowerTop™

Part#

PowerTop™ Kit, Black Sail Cloth, Jeep® Wrangler (JK) 4-Door 07-14

13515.01

Note: Professional installation at a pre-approved installer required.

A durable hydraulic piston provides the torque to lift and retract the Power Top. Easily secured to the vehicle wheel well and soft top frame, this durable component has been cycle tested to ensure a long life and consistent performance.

The Name PowerTop™ comes from a durable electric power plant that has been specially developed for strength and size. This heavy duty motor installs in the storage compartment in the rear of your Jeep® keeping the rear cargo area clutter free. Each Power top includes the necessary wiring harness to make installation as easy as possible.

All Power tops have a tinted rear window that either rolls up or can be completely zipped out. This allows for that open air experience that Jeep® owners love! All Window glass is extra thick 30mil DOT approved with 31% tint. Quality and superior function all in one!

Our Eclipse Sun Shade is a mesh shade that installs in between the front portion of a JK sport bar providing an open air experience while protecting passengers from the sun. Works with soft tops & hard tops while allowing access to the top clamps without uninstalling the shade. Installs quickly and easily with a simple bungee ball installation and it comes with a small mesh carrying bag for storage when not in use.

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident injury:

- Always wear seat belts.
- Read and follow all instructions and warnings accompanying this product, in vehicle owners manual and Off Road Driving Supplement.

⚠ Calif. Residents: See Prop. 65 Warning on Page. 2

HARD TOP SOUND DEADENER/INSULATION

If you chose the Hard Top option for your 07-12 Wrangler then you need Rugged Ridge®'s Sound Deadener. This insulation is custom fit for the factory multi-piece hard top and greatly reduces noise inside your vehicle. The special insulation material is surrounded by heavy duty pleated nylon providing added interior comfort by insulating the cab from heat and cold. A no drill installation with durable hook and loop fasteners allows for an easy installation without removing your hard top.

RUGGED RIDGE® SOFT TOP ACCESSORIES

WINDOW STORAGE ROLL BAG

Protect your soft top windows from scratching and other damage with a window storage bag from Rugged Ridge®. This easy to use storage bag stores your rear quarter and rear back window using a soft internal material and a heavy duty exterior fabric bag for the ultimate in protection. The internal fabric is placed between the windows to prevent scratching and window on window contact. Simply place the windows in between the fabric and gently roll the windows into an easy to store "window roll". The rolled up bag can now be easily installed to the rear of your sport bar with attached nylon straps and buckles. This window storage bag solution is a must for those soft top owners who want to keep their windows out of harm's way and prolong the life of their soft top. Each storage bag is backed by an industry leading 3 year limited warranty.

TIRE COVERS

Custom designed to fit today's most popular sized tires. Constructed of durable vinyl coated polyester fabric. Colors match other Rugged Ridge® Soft Top Accessories. Please measure tire diameter.

Tire Diameter	Black	Other Colors*
27-29"	12801.01	12801.XX
30-32"	12802.01	12802.XX
33"	-	12803.XX
35-36"	-	12804.XX

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above.

*Replace "XX" with corresponding swatch color number shown below

WATER RESISTANT CAB/FULL COVERS

Custom fit Cab Covers protect your vehicles interior from dust, dirt and light showers. Constructed of vinyl coated polyester fabric or a space age cover material (Weather Lite/Three Layer Covers), these easy to use covers install in minutes. Reinforced elastic side straps and under body hooks hold the cab cover in place. No drilling required. Complete vehicle covers also available in breathable Weather Lite fabric or durable Three Layer Fabric. Weather Lite is perfect for inside storage while the Three Layer covers are designed for short term outdoor use.

Complete Cover kits with lock and storage bag available.

Will not work with 2013-14 spring assist.

RUGGED RIDGE® JK DOOR STORAGE BAGS

Prolong the life of your hard doors with this handy storage option from Rugged Ridge®. Each storage bag features special soft fabric sides that are padded to "cradle" your hard door. We use oversized zippers and durable nylon fabrics for long life and weather resistance. Special handle placement allows for easy carrying and storage, and each bag includes a strap that allows them to hang on the wall of your shop or garage.

SHERPA JK ROOF RACK SYSTEM

The new Sherpa Roof Rack System by Rugged Ridge® for the 07-14 Jeep® Wrangler (JK) is an easy bolt-on solution for 2 or 4-door Wranglers that requires no modifications to the body of your Jeep®.

The unique tilt feature allows you to access your soft top with ease, and the hard top or freedom panels can be removed without removing the rack system. As an added bonus, the forward mounting bar acts as an integrated light bar. The Roof Rack System accepts the Rugged Ridge drop down light bracket (PN 11232.22) to mount up to 4 lights.

Remove your Freedom Panels without having to move the roof rack.

New!

Designed to allow removal of hard top without moving the roof rack.

Roof Rack tilts back allowing you to easily put your soft top back.

Use the optional Roof Rack Adapters to mount cross bars.

ALL TERRAIN MODULAR BUMPER

Modeled after our XHD Modular Bumper System, but with the more budget-oriented consumer in mind, Rugged Ridge® set out to create an affordable yet strong and functional bumper system. With the All Terrain bumper system we developed a bumper that will retail starting at \$299.99. The All Terrain Modular Bumper System is built from black powder coated steel and has a renewed focus on design and functionality. Owners can again design and build a bumper to fit their specific needs. The new Double X-Striker is an option currently exclusive to the All Terrain modular bumper system. A unique feature of this bumper is that it can be upgraded from a non-winch to a winch bumper. A removeable steel plate covers the winch area until the consumer is ready to add a winch. All Terrain bumper options are not compatible with any of the XHD bumpers. Patent#s 7,703,834 & 8,393,656

New!

XHD ALUMINUM BUMPER SYSTEM

Designed to be a whole new look while being extremely light weight. Save on fuel and the need for front suspension spacers. The Bumper is all Aluminum but uses the current steel XHD D-rings. Each bumper comes with a built in top filler plate. Each new aluminum XHD has cutouts and mounting points for the factory fog lights and a great looking "Jeep® Style" front slat look that will make this bumper stand out. If you want to run a winch, simply remove the filler plate and attach the optional JK Winch mounting plate (Steel Plate). The XHD Aluminum bumper is approximately 80lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings. Patent #s 7,703,834 & 8,393,656

Available Components:

- Aluminum Center Section with Steel D-Rings
- Stubby Bumper Ends - Aluminum
- JK Winch Plate - Special design for this bumper
- Special Aluminum Over-rider with front slope

Note: Aluminum XHD & Steel XHD components are not interchangeable.

Just How Light is the Aluminum XHD Bumper?

Front Bumper	Weight
Aluminum XHD - Standard Configuration*	26.9lbs
OE Bumper	35.7lbs
Brand X Off Road Bumper	110lbs & Up

*Standard Configuration: Bumper Base, Filler Plate & D-Rings. The optional Hoop Over-rider, Stubby Ends & Winch Plate make the maximum overall weight of the bumper 62.6lbs.

XHD ALUMINUM REAR BUMPER PODS

Taking the light weight theme further, we have developed steel inner framed Aluminum Rear Bumper Pods. These new lightweight Pods still allow for over sized tires but take a huge chunk of weight out of the bumper. (The picture shows the rear pods installed with the enclosed steel D rings for the XHD Rear Tire Carrier). Each Pod can be used with tire carrier part #11546.20 to hang those 35"+ tires shown in picture with the optional center step. The XHD Aluminum bumper pods are approximately 40lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings.

XHD TIRE CARRIER MOUNT FOR 07-14 WRANGLER

The New Tire Carrier Mount by Rugged Ridge takes convenience and durability to a whole new level. Constructed from durable steel, the mount is easy to add on to existing bumpers and is compatible with body lifts and XHD rear bumpers. The mount reduces vibration of the tire carrier, and features an adjustable saddle, linkage to tailgate, and reinforced spindle to double protection!

Part

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat to grab your gear, than hassling with the tire carrier? The Rugged Ridge® Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge® XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

THIRD BRAKE LIGHT EXTENSION

The third brake light extension kit from Rugged Ridge is a brake light solution JK owners have been waiting for. Our brake light extension kit is fully adjustable in 1" increments and works with the OE spare tire carrier and most aftermarket units as well! It is made from durable black powder coated steel. It moves the third brake light up above oversized spare tires from 33" to 42". Off road antenna mount or send flag mount integrated into design.

FRONT TUBE BUMPERS

Rugged Ridge® Bumpers have been engineered to the industry's most exacting specifications. All powder coated Rugged Ridge® bumper products are "E-coated" to ensure a no rust finish. Rugged Ridge® Bumpers can take small rock chips and still maintain their rust protection. All Rugged Ridge® Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Need to mount a winch on your Jeep®? The winch mount version of the Rugged Ridge® Front Tube Bumper features a built in winch mounting plate. Nothing extra to buy! Finally, all Rugged Ridge® Bumpers feature welded end caps rather than plastic end caps.

Front Bumpers	Front Bumper with Riser	Black	Textured Black	Stainless

JK STUBBY TUBE BUMPER

Rugged Ridge® has taken their industry leading Front Tube Bumper and re-designed the ends to make the ultimate high clearance off-road winch bumper. This unique design has a built-in winch mount and special cut-outs for the JK Wrangler factory fog lamps. Like our regular tube bumper, we have cut into the front tubing allowing the bumper to "hug" the front end of the Jeep®. Each bumper includes durable welded end caps and polished smooth welds for the ultimate in durability. NEW: Special inside pre-coat eliminates any chance of interior rusting. A Rugged Ridge® Exclusive!

REAR TUBE BUMPER

Get the off-road look with a Rugged Ridge® Tube Bumper! Each bumper has smooth ground welds, welded end caps (not plastic end caps!) and the unique style only available from Rugged Ridge®. Center tire cut-out allows for larger tires while still keeping that off-road look, accommodates tire sizes up to 35". Each rear tube bumper includes a special UV treated textured plastic filler plate to fill in the gap between the body and the bumper, a Rugged Ridge® exclusive.

Rear Tube Bumper	Textured Black	Stainless
Rear Tube Bumper, 07-14 Wrangler	11571.10	11573.10

RRC REAR BUMPERS

The Rugged Ridge® RRC Rear Bumper provides the off road protection you are looking for! The frame mounted platform features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. Each RRC bumper is constructed of durable powder coat painted .120 wall welded end cap steel tubing for long life and extreme durability. RRC Rear Bumper also features a reinforced hitch box that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). To make your vehicle look its very best, we have enclosed a rear filler plate that completes the look of your bumper and hides un-sightly under carriage parts.

RRC Rear Bumpers	Textured Black
07-14 Wrangler, RRC Rear Bumper w/Hitch Each	11503.15

OFF ROAD JACK MOUNT

JK Off-Road Jack Mount allows you to carry your Off-Road jack on the outside of your vehicle saving precious cargo space. Fast and easy bolt on installation. Compatible with stock and most aftermarket rear bumpers (without tire carriers) as well as Rugged Ridge® XHD rear bumper with or without tire carrier. Bracket is sturdy and secures the jack in two locations to eliminate any vibration noise during vehicle operation. Durable textured finish looks great. Fits most off-road style jacks including Hi-Lift™.

Off Road Jack Mount	Part #
Off Road Jack Mounting Bracket, Hi-Lift Style, Jeep Wrangler 07-14	11586.01

HOOD LOCK

Special design virtually disappears into the grille. Cam lock design keeps people out of the engine compartment of your Jeep®. These clever applications install in minutes. An upgraded internal lock cover keeps ice and debris from fouling the lock mechanism.

Hood Lock Kits	Part #
07-14 Wrangler, Each	11252.05

OFF ROAD JACK ROLL BAR MOUNTING BRACKET

Get your Hi Lift style jack out of the elements with this roll bar mounting kit from Rugged Ridge®. Storing your jack outside leaves it vulnerable to water, debris, ice and theft. These great new brackets allow you to secure your jack to the sports bar without sacrificing cargo area storage, and increase the longevity and function of your jack! The simple no drill installation allows for easy removal and storage of the jack.

Off Road Jack Roll Bar Mounting Bracket	Part #
07-14 Wrangler	11586.02

OFF ROAD JACK HANDLE STRAP

This handy Off Road Jack Handle Retainer Strap pulls taut to secure the jack handle to the jack and eliminates obnoxious rattles. Fits most off road style farm jacks including Hi-Lift.

Off Road Jack Handle Retainer Strap	Part #
Universal Application, Black	13305.60

CB ANTENNA MOUNT

This durable mounting bracket installs directly to factory tire carrier on 2007-current Jeep® Wranglers without drilling. Each powder coat painted textured black steel bracket is extremely durable and provides a hidden mounting point for your CB or off road antenna. Each antenna mount includes mounting hardware and bracket.

Spare Tire Carrier CB Antenna Mount	Part #
Spare Tire Carrier CB Antenna Mount, 07-14 Wrangler,	11503.89

RRC SIDE ARMOR

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge® Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

07-12 Wrangler models have simple bolt on design. Utilizes existing body mount locations on frame.

07-14 Wrangler, 4-Door Pair	11504.20
07-14 Wrangler, 2-Door Pair	11504.21

RRC ROCK SLIDERS

This true Rock Crawling design puts protection tight up under the side of your Jeep® while adding a special side "hoop" to block those large outcroppings. Special no drill frame mounted design provides secure, bounce-free installation while keeping the mounting points above the bottom of the frame for greater ground clearance. Each RRC Rock slider mounts to your Wrangler using a simple bolt on frame mount design for ease of installation and extra durability.

RRC Rocker Sliders	Textured Black
07-14 Wrangler 4-Door Pair	11504.22
07-14 Wrangler 2-Door Pair	11504.23

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge® tubular tough duty side steps. Available in 3" round, 4" round, and 4.25" oval diameter sizes. The large 4.25" oval and 4" round tubes provide a much cleaner look and are not "dwarfed" by oversized tires and oversized body style features of the 2007-12 Wrangler. Rugged Ridge® Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge® step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge® painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge® Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. All 2007-12 Wrangler models are no drill designs.

LOCKABLE SPARE TIRE MOUNT BIKE CARRIER

This easy-to-use bike rack mounts to any emergency tire mounting studs. The bike rack carries 2 bikes directly off the spare tire. It is constructed of 2" powder coated steel tubing for maximum rust protection and durability. The bike clamp features rubber pads to protect your bike's finish. The carrier comes with 2 keys for the locking mechanism. Fits wheel off sets from 2-5/8" to 6". For All Jeep® Outside Spare Tire Applications

Bike Carrier	Part #
Spare Tire Mount Bike Carrier, Each	11237.10

To avoid risk of serious injury or death:

- Review & follow all required towing options, weight limitations and recommendations in Towing section of your Jeep® Owners manual.
- Never exceed smallest GVWR of your trailer towing system (Jeep® vehicle, hitch, draw bar and ball). Receiver draw bar and ball included with this kit are Class 2 rated (trailer GVWR 2000 lb {less than symbol} 3500 lb). Vertical tongue weight {less than symbol} 200 lbs.

FRONT SKID PLATE

Custom designed to protect the steering components on all 2007-14 Jeep® Wranglers, this overbuilt skid plate is a must for those off road adventures. Constructed of durable 1/4" powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge® front bumpers (looks amazing with the XHD Bumper system!) or all factory front bumpers, this skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. Easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

Front Skid Plate for 07-14 Wrangler

Front Skid Plate- All RR bumpers, all factory original bumpers

Part #

18003.30

HEAVY-DUTY DIFFERENTIAL COVERS

Made from either 3/8" cast steel or 5/16" stamped steel, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle.

RUGGED RIDGE® SHOCKS

Rugged Ridge® only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the Rugged Ridge® kits provide a better ride both on and off road. By using an Rugged Ridge® lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road.

Shock features include:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road damage
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings
- Limited lifetime warranty on the shocks

Rugged Ridge® Shocks

	Front	Extended	Collapsed	Rear	Extended	Collapsed
Nitrogen Series Shock, 07-14 Jeep® Wrangler 2-Door, 3.5" Lift, 07-14 Wrangler 4-Door 2.5" Lift	18465.09	22.75"	13.54"	18465.10	25.35"	15.05"

Shock Boot, Red, Universal Application New	18479.51
Shock Boot, Blue, Universal Application New	18479.52

RUGGED RIDGE® STEERING STABILIZERS

Rugged Ridge® recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The Rugged Ridge® Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. Rugged Ridge® Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

ORV™ Steering Stabilizers

ORV™ Steering Stabilizers	Part#
ORV™ Hydraulic Series Steering Stabilizer, 07-14 Jeep® Wrangler 2 & 4-Door	18475.03

WARNING

INVERTED DRAG LINK

The inverted drag link is designed to restore the steering geometry on lifted Wranglers. The re-designed drag link is inverted or flipped up over the knuckle to increase ground clearance and reduce bumpsteer. This part may reduce need for drop pitman arm. NOTE: a 13/16" drill bit is required for installation.

WARNING

Inverted Drag Link

Inverted Drag Link	Part#
07-14 Wrangler, Inverted Drag Link NEW	18205.26

ADJUSTABLE TRACKBAR

New!

This heavy duty adjustable track bar helps bring your axle back to being centered under your Jeep after being lifted. If your Jeep suffers from the dreaded -death wobble- then this track bar might be just the ticket to getting things back under control.

WARNING

Adjustable Trackbar

Adjustable Trackbar	Part #
Adjustable Trackbar, 07-14 Wrangler NEW	18205.08

FRAME BRACE KIT

The heavy duty frame brace and trackbar drop bracket from Rugged Ridge have been designed to reduce front end movement and shimmying on lifted JK Wranglers. The frame brace includes a trackbar drop bracket to help maintain the proper steering geometry. The kit is recommended on any JK Wrangler with 3" or more of lift and an adjustable trackbar. Welding is required for installation.

WARNING

Frame Brace Kit

Frame Brace Kit	Part#
07-14 Wrangler, Frame Brace Kit NEW	18205.25

LIFT KITS

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-14 Wrangler JK, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

Rugged Ridge® 2.5"-3.5" Coil Spring Lift - With shocks part # 18415.50

- The most complete kit available on the market for JK.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to factory rates, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- 4-Door JK's will get on average a 2.5" lift. Two door models will get up to a 3.5" lift.

WARNING

Rugged Ridge® 4"-5" Coil Spring Lift - With shocks part # 18415.60

- Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Kit includes sway bar disconnects for more articulation off road.
- Uses tough, over built extended control arms for added strength and performance.
- In most cases control arms are longer than factory to adjust for caster.
- 4-Door JK's will get on average a 4" lift. Two door models will get up to a 5" lift.
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4" or greater lift kit on a 4-Door Wrangler. A new drive shaft will be required on any 2007-12 2-Door Wrangler due to the shorter wheel base.
- All 4" Kits require a drop pitman arm. (Sold separately: Part# 18006.55)

07-12 Jeep® Wrangler JK/Rubicon, 4WD (2 & 4-Door models)	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size HxWxD	Max Wheel Offset	Est. Install Time
2.5"-3.5" Lift, 07-14 Jeep® Wrangler, 2 & 4-Door	18401.50	18415.50	34"x12.5"x16"	4.5"	6 Hrs
4"-5" Lift, 07-14 Jeep® Wrangler, 2 & 4-Door*	18401.60	18415.60	35"x12.5"x16"	4.5"	8 Hrs

Note: due to vehicle weight, the 2-Door models may receive an additional 1" lift over 4-Door models

* Will require a drop pitman arm 18006.55. Sold Separately

18401.50 Kit includes: (4) coil springs, rear track bar bracket, rear bump stop bracket, rear track bar brace, hardware kit

18401.60 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, (2) rear bump stop spacers, front track bar bracket, rear track bar bracket, (2) front double disconnect end links, (2) rear extended sway bar end links, rear track bar brace, hardware kit

CV EQUIPPED DRIVE SHAFTS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. Constant Velocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

CV Equipped Drive Shafts	Part #
07-14 Wrangler, Front 2/4-Door	16592.22
07-14 Wrangler, Rear 2-Door	16592.21
07-14 Wrangler, Rear 4-Door	16592.20

DROP PITMAN ARM

This drop pitman arm helps reduce the angle of your drag link so it reduces the bumpsteer created when a 3.5-inch to 6-inch suspension lift is installed.

WARNING

Drop Pitman Arm	Part #
Drop Pitman Arm, Power Steering, 07-14 Wrangler	18006.55

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge™ suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

FRONT AXLE KITS COMPLETE INNERS/OUTERS WITH U-JOINTS & CLIPS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA®'s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

RING & PINIONS

These affordable high strength gear sets come in all the popular ratios to satisfy everyone's gearing needs. Oversized tires require higher ring & pinion ratios to restore performance. Made from high quality 8620 forgings and Gleason gear cutting technology, these gears are made to last. Complete installation kits are available separately to complete the job. Exclusive 5-year warranty. Available in 3.73, 4.10, 4.56, 4.88, 5.13 and 5.38 ratios.

*2012 and up models may require an aftermarket programmer to sync the new gear ratio to the transmission controller

RING & PINION MASTER & OVERHAUL KITS

These great kits offer all the components you will need to complete your differential rebuild or ring & pinion installation. Complete with bearings, pinion seals, pinion shims, crush sleeve, pinion nut, ring gear bolts and marking compound.

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

Rugged Ridge® is proud to introduce the toughest new design in custom wheels for 2007-14 Wrangler. This Hub-Centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. Better fit, no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face give a great 3-piece look, and also let you accessorize with our optional trim ring. Each wheel includes a UV-treated polished center cap that replicates a manual hub for that off road look. Available in five finishes: Satin Black Powdercoated, Satin Black Powdercoated with Machined Lip, Silver Powdercoated, Dual-Stage Polished Chrome, and Limited Edition Hyper Silver. The durable powdercoated finish gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine that commands attention. Rugged Ridge® wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and 1 year finish warranty (see warranty information for details and limitations). Backspacing is 4 9/16 with a 12mm offset.

New Modular center cap design for the 18" XHD Wheels allows for multiple looks - full center cap or low profile. Patent Pending.

WARNING

Improper wheel/spacer installation and torquing may degrade handling and result in wheel separating from vehicle.

TO REDUCE RISK OF INJURY OR DAMAGE ALWAYS:

- Torque lugs using vehicle manufacturer's recommendations & sequence, assuring clean threads, wheel cold and compatibility of lugs nuts to wheel surface.
- Inspect & re-torque lugs after 50 miles (80 Km.) of installation or wheel service.

RIM PROTECTORS FOR XHD WHEELS

Trim rings are available in either Satin Black Powdercoated or Polished Stainless Steel. These trim rings are a great way to protect the wheel lip and tire bead. They also allow you to change the look of your wheels with just a few bolts. For use with Rugged Ridge® aluminum wheels only.

The Drakon Alloy Wheel by Rugged Ridge is a cast aluminum alloy available in four stunning finishes for a truly unique appearance. Purposed for the 2007-14 Jeep Wrangler JK, Drakon wheels are DOT approved, have a 4.53 inch backspacing, a 2200 lb. load rating, 5 on 5 inch bolt pattern and include a center cap. The hub-centric design means this wheel will center perfect every time. Bring the look of any JK to a whole new level with the Drakon Wheel. Rugged Ridge wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and 1 year finish warranty.

STEEL D-WINDOW WHEELS

Legendary looks, brutally epic strength. Each Rugged Ridge® steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up the abuses of off road use. Because a Jeep® isn't a Jeep® until its lifted and outfitted with oversized tires. All Rugged Ridge® Steel D Window wheels include a FREE polished center cap!

Steel D-Window Wheels

	Part #
07-14 Wrangler, Black, 17X9, 5 on 5 Bolt pattern, 4.5 Backspacing	15500.70

HEAVY DUTY TIRE SPACER

Bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Features 5x4.5" and 5x5.5" wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-12 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50" or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier.

HD Tire Carrier & Spacer

	Part #
07-14 Wrangler, Textured Black, Each	11585.02

CAUTION: The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes.

WHEEL SPACERS & ADAPTERS

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are 10 pre-installed grade-8 wheel studs, 10 lug nuts and thread locker.

CAUTION!
CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with handling due to the increased off-road capabilities. See additional product safety information and WARNINGS at back of catalog.

STAINLESS STEEL BRAIDED BRAKE HOSES

Rugged Ridge® Braided Stainless Steel Brakes Hoses feature a tuff stainless steel braided outer cover with a flexible Teflon inner core to withstand trail hazards better than OE rubber hoses. They provide up to 4" of additional length over stock hoses, a must for any lifted vehicle! Braided Stainless Steel Brakes Hoses improve braking performance! So, you won't suffer from a soft brake pedal caused by OE rubber hose expansion. Meets or exceeds DOT MVSS-106 regulations. Backed by the Rugged Ridge® industry leading 3-Year Limited Warranty.

	Part #
Stainless Steel Braided Brake Hose Kit, Front and Rear Hoses, 07-14 Wrangler NEW	16734.10

Rugged Ridge

Remove the heat and maximize your engine performance with the new Performance Vented Hood from Rugged Ridge. Made of stamped steel and a factory inner core, this hood fits like the original yet allows more heat to escape from the engine compartment than other hoods on the market today. The SRT® inspired design gives a great aggressive look. Vents are removable to make it easier to paint. Uses factory attachment points and most aftermarket accessories will simply bolt into place. Got Heat? You need this hood.

Tire Inflator/Deflator, Universal	5104.55

New!

ALL TERRAIN FLAT FENDER FLARES

Now, with the NEW All-Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep® into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, yet you still get greater ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the factory mounting points with no drilling. Simply remove your original flares and add on the All Terrain flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights.

FLARE WHEEL LINER KIT

Designed for use in combination with the Rugged Ridge® All Terrain Flat Flares for JK, PN: 11620.10, these wheel well liners help keep mud and debris out of the engine compartment and provide a clean finished look. Constructed from durable HDPE, the wheel liners replace the factory wheel well liners that must be removed when running aftermarket flares. Simple bolt in installation, no cutting or drilling required. Kit includes all four wheel well liners and mounting hardware.

REPLACEMENT FENDER FLARE KITS

Rugged Ridge® provides the most comprehensive replacement Fender Flare program on the market today. Rugged Ridge® has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes for ease of installation. Just need to replace one flare? No problem. Rugged Ridge® offers individual replacements to keep your investment to a minimum.

JK HURRICANE FLAT FENDER FLARES

Jeep® enthusiasts can now get that aggressive off-road look with the newly designed Hurricane Flat Fender Flares by Rugged Ridge. This design was inspired by the 1941 Willys MA. The double bolt pockets provide a new modern twist to classic flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black). Constructed of durable injection molded TPE material, the flares rest high on the vehicle to provide extra clearance for wheels while on trails. Backed by an industry leading 5 year limited warranty, the Hurricane Flat Fender Flares will really set your JK apart from the crowd!

Bug Deflector

MATTE BLACK VISORS & DEFLECTORS *New!*

New from Rugged Ridge, these side Window Visors are aerodynamically designed to reduce wind noise while channeling airflow to keep your vehicles interior free of smoke, stale air and window fogging. The special design channels rain around your window while still allowing air to flow. Tired of bugs and road debris ruining the look of your hood and windshield? The new Bug Deflector from Rugged Ridge takes care of that and creates a great unique look, especially when combined with the Window Visors. Constructed of durable scratch resistant Matte Black Finish acrylic, these wind and bug deflectors easily install with special automotive grade tape.

- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

8,500 LB Performance Winch with Synthetic Rope	Part #
8,500 LB Performance Winch with Synthetic Rope	15100.02

WARNING

HEAVY DUTY 10,500 LB WINCH WITH SYNTHETIC ROPE

ALL RUGGED RIDGE® SYNTHETIC WINCHES INCLUDE AN ALUMINUM HAWSE FAIRLEAD

- Durable 6.6 HP Series Wound motor for long life and extra pulling power.
- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 3/8" 12-strand braid with a breaking force of 19,310lbs
- Protective sleeves keep line from overheating on winch drum.
- Hawse fairlead included

10,500 LB Performance Winch with Synthetic Rope	Part #
10,500 LB Performance Winch with Synthetic Rope	15100.11

WARNING

WARNING

Failure to follow these instructions could lead to severe injury or death. Consult further WARNINGS/CAUTIONS and instructions in this use/installation manual. Due to loads involved, all winching involves significant risks. To minimize risks of injury Always:

- Assure winch, mounting, cable and hook are undamaged. Vehicle, slope and conditions should not approach maximum rated pull. Leave a safety margin.
- Use supplied hook strap when spooling in or out (no load). Use gloves and keep fingers and body clear of hook, cable and fairlead during installation and all winch operations.
- Position operator inside vehicle when possible with control switch routed through window rather than door jam. Keep others a safe right angle from cable and vehicle when winching (min. 1.5 times distance of cable). Use greatest cable length possible while keeping at least five turns around spool.
- Fully engage clutch before powering cable in. Do not disengage or adjust clutch while under load. Pull in stages to avoid heat buildup and motor damage.
- Never use vehicle recovery winch for persons or as hoist.

SYNTHETIC WINCH ROPE

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

Rugged Ridge

Synthetic Winch Rope

	Part #
Synthetic Winch Rope 11/32" x 100', Breaking Force of 16,550 lbs, Each	15102.10
Synthetic Winch Rope 3/8" x 94', Breaking Force of 19,310 lbs, Each	15102.11

WARNING

ALUMINUM HAWSE FAIRLEAD

This hawse fairlead will help guide the synthetic winch rope to and from the spool. Required for synthetic rope. Not recommended for steel rope.

Aluminum Hawse Fairlead, Each	11238.01

WARNING

WINCH CABLE HANDLE

The winch hook handle is the perfect solution for handling a winch cable. It is constructed of tough nylon webbing with a molded sure-grip handle. Perfect for getting a good solid grip of the winch hook when free spooling cable for a recovery and a safe way to respool your cable without endangering your fingers. Just slip your winch hook through the nylon webbing and you are ready to rock!

Winch Cable Handle

	Part #
Winch Cable Handle, Each	15102.01

WARNING

DUAL BATTERY TRAY

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain to to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powder coated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included.

Rugged Ridge® Dual Battery Tray

	Part #
07-11 Jeep® Wrangler	11214.53

LIGHT MOUNT ROLLER FAIRLEAD

Turn your roller fairlead into an off road light mount! This revolutionary new design allows for two off road lights to be easily mounted while not interfering with the winch operation.

WARNING

LED LIGHTING

The LED Lighting from Rugged Ridge was designed, engineered, and tested to ease the abuse caused by off-roading, and optimize your adventure by illuminating the area around you. Our LED lights are vibration, corrosion, and submersion tested to meet and exceed standards and provide prime performance during your adventure. The 3-inch square 16 watt features black powder -coated aluminum housing, stainless steel hardware, and 4 CREE diodes with 30,000 hour life. The 72 watt double row LED light bar from Rugged Ridge is 13.5 inches long and has 24 CREE diodes. The light bar has a combination of 8 degree spot beam diodes and 90 degree flood beam diodes.

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish.

JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Oversized 2" textured black tubing attaches to your windshield mounts with no drilling. Each Light bar has five light tabs for use with Rugged Ridge® Lighting options (fits up to five 7" lights). Each light bar has been specially developed to work with Rugged Ridge® Light mount brackets and/or Rugged Ridge® mirror relocation brackets. Special three piece design makes the packaging small for ease of shipping. This is truly the most advanced light bar on the market!

Windshield Light Bar	Part #
Textured Black, Jeep Wrangler (JK) 07-14, Each	11232.21

LIGHT BAR LOWERING KIT

The Rugged Ridge® lowering light bar kit, allows you to mount lights lower on your light bar. Not always do you need the lights all the way on the top due to clearance issues or you want to reduce the wind resistance. The lowering kit allows you to mount up to 7" lights.

Windshield Light Bar Lowering Kit	Part #
Textured Black, Jeep Wrangler (JK) 07-14, Each	11232.22

SPARE TIRE LIGHT MOUNT

The new Spare Tire Light Mount from Rugged Ridge® offers a utility light mount that is easily removable for access to the spare tire, and also offers you a place to relocate the license plate from the vulnerable original location. Textured black steel construction with stainless steel hardware.

Shown with 100 watt halogen light - Omix# 15207.05 (Not Included)

HALF DOORS

Looking for an economical way to replace your factory full steel doors with a set of half doors? Rugged Ridge® Half Doors help keep the elements out while maintaining that open air experience. The Half Doors are constructed from paintable, impact resistant, thermoplastic outer door skins mounted to rigid powder coated internal steel door frames. The Half Doors interchange easily with the factory steel doors and require no body modification for installation. They feature lockable door handles, an internal storage pouch, waterproof seals, OE style hinges, and mirror mounts. The Half Doors are also available with optional upper soft doors.

Features and Benefits

- Impact resistant thermoplastic black ABS material with enhanced UV protection.
- Matte finish is easily paintable for custom match factory look.
- Specially reinforced internal steel frame provides strength and is powder coated to resist corrosion.
- The textured inner ABS panels provide a finished look and feature a grab handle and storage pocket.
- Each door has a weather tight seal to keep out moisture and reduce wind noise.
- OE Style Hinges provide a factory look and are designed to last.
- Durable and lockable paddle handle.
- Matching soft upper doors available for all season protection from the weather.
- Designed to work with your original mirror or Rugged Ridge® replacement mirrors.

WARNING

This product is intended to provide added off-road convenience and utility to your vehicle. This product is not intended to provide occupant containment or protection in the event of an accident or roll-over. Further, on road use may involve increased risk of serious injury in the event of side-impact accidents.

TO REDUCE RISK FROM THESE TYPE OF INJURIES:

- Always wear seat belt and shoulder harness for all vehicle occupants.
- Keep arms and body inside vehicle.
- Drive safely, read and understand all manufacturers warnings and product instructions before installation.

FACTORY STYLE JK MIRRORS FOR WRANGLER

- Replicas of the factory original mirrors maintain OEM look.
- Easy no-drill install, mounts into original mirror location.
- Durable UV protected black plastic
- Mirrors including LED turn indicators require some wiring.

TUBE DOORS

Like the "doors off" feel but also want the added convenience and utility of having doors on the trail? Rugged Ridge® Tube Doors are constructed from durable 1.5" mandrel bent steel tube that is E-Coated primed and then textured powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

Features and Benefits

- Thicker than most other tube doors with durable 1.5" diameter steel tubing construction providing added strength and great looks.
- E-coat and textured powder coat for corrosion resistance.
- Design to work with your original mirror or for added convenience permanently install a pair of Rugged Ridge® replacement mirrors.
- Half doors are easy to install and remove and are small enough to be stored in the vehicle.
- Durable and lockable paddle handle.

STAINLESS STEEL ACCESSORIES

Get the ultimate WOW factor with Rugged Ridge® polished stainless steel accessories! These beautiful bolt on accessories turn even the most worn Jeep® into a hot street machine. Constructed of prime 304 stainless steel that has been polished to a mirror finish, these accessories are built to last. 304 stainless steel is virtually rust proof guaranteeing that these parts will stand the test of time. All hardware is also constructed of stainless steel so the polished look you are going for is complete. Rugged Ridge® offers the most complete line of stainless accessories so you can truly customize the look of your vehicle. When you want the best, look to Rugged Ridge® Stainless Accessories!

STAINLESS HINGE TREATMENTS

These cast stainless design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side.

INTERIOR STORAGE BY RUGGED RIDGE®

DASH ORGANIZER

Looking for space to store that clutter? Introducing the new Rugged Ridge® Dash Organizer for 07-10 Jeep Wranglers! This innovative new product incorporates existing mounting points to install a dual tray storage system right on your dash. Now you can easily store coins, pens, sunglasses, cell phones and other small items right in reach of both the passenger and driver. Installation is a snap; simply remove the original equipment screw covers on your dash, screw in the exclusive double headed mount and attach the Dash Organizer. It is that easy! Each Dash Organizer incorporates UV treated thermoplastic mounts and two trays with a painted aluminum cross tube for the ultimate in flexible design.

RUGGED RIDGE® SUN VISOR COVERS

Instantly turn those plastic factory sun visors on your 2007-2012 Wrangler into usable storage space while getting a clean new look with Custom Rugged Ridge® Visor Covers. Each pair of visor covers quickly and easily attach to your factory sun visors without drilling or vehicle modification. Constructed of durable interior matching textured black vinyl, these covers will provide the storage and features you want while looking great. The driver's side cover features a see through bottom window to expose the factory warning labels and an inside storage pocket with custom storage options; two pen/tire gauge holders, clear window registration/insurance card holder, Mesh storage pocket for commonly used items like garage door openers and a cavernous fold down storage pocket that can hold CD's and cell phones. The passenger side cover offers the same cavernous storage pocket as the driver's side (great for road maps!) but also features a vanity mirror. Packed as drivers' and passenger set, these great covers are the perfect add on accessory for your Jeep®! Note: 07-09 Visor Covers will not interchange with 10-2012 Wranglers due to factory visor change.

RUGGED RIDGE® OVERHEAD STORAGE CONSOLE

The Rugged Ridge® Overhead Storage Console is the storage solution you have been waiting for! It instantly turns the area underneath your top into usable storage space without any interference or modification to your vehicle. Fits all 2007-2012 Jeep® Wranglers! Works with soft tops, hardtops, the top up, or the top down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded High-Density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5"x2.5"x6.5" and offers more than 450 cubic inches of storage.

Rugged Ridge® Overhead Storage Console	Part #

TRAIL BAGS

Rugged Ridge® has the answer for your onboard storage needs. These soft-side storage bags feature heavy canvas construction and oversized zippers. Great for carrying recovery gear, spare parts, camping gear, clothes, or any other necessity for a wheeling trip. Rugged nylon straps keep the bags in place during even the most insane wheeling. Make the most out of your roll cage with a full complement of Rugged Ridge® storage bags. These bags are easy to install and take off and work with both hard tops and soft tops.

TAILGATE STOP

This billet aluminum door stop incorporates a sliding arm that locks into place keeping your tailgate door open even on the most severe slopes. Load your Jeep® with ease! Some drilling required to install.

Tailgate Stop	Part #
07-10 Wrangler, Each	11238.11

FIRE EXTINGUISHER HOLDERS

Special designed holder incorporates thick nylon web straps that secures your Fire extinguisher to the roll bar. Straps are fully adjustable and secure with hook and loop fasteners. Holds one 3lb. fire extinguisher (not included).

Roll Bar Fire Extinguisher Holder	Black	Red
For all Jeep® 3" Roll Bars, Each	13305.21	13305.20

ROLL BAR DRINK HOLDER

Quickly places a convenient drink holder anywhere along your Jeeps Sport Bars. Padded nylon drink holders attach with quick release "hook & loop" straps and hold a variety of cups and water bottle sizes. Foam insulation keeps your favorite beverage cool in the hot summer sun. Packed in pairs for both front and back seat use.

Roll Bar Drink Cup Holder	Part #
For all Jeep Roll Bars, Pair	12101.51

LED COURTESY LIGHTS

The natural design of a Jeep® interior does not provide adequate interior lighting for map reading or looking for items inside your Jeep®. Now you have two outstanding options for interior lighting with the new Rugged Ridge® LED Courtesy Lights. Each lighting option features an extra bright, energy efficient LED light powered by 3 AAA batteries (not included) so there is no wiring required. The Roll Bar mount design attaches to any 2-3" roll bar using heavy duty straps and hook and loop fasteners. The NEW header mount courtesy light attaches with screws to the interior location of your choice.

LED Courtesy Lights	Part #

07-14 Wrangler 4-Door Rear, Pair	11119.05	11216.11

11119.05 Entry Guards, 4-Door 07-12 Wrangler, Stainless

11216.10

STAINLESS STEEL CAT-BACK EXHAUST SYSTEM

Open up your Jeep®'s exhaust with this great looking & long lasting polished stainless steel dual exhaust system. The 2 1/4" mandrel bent pipes give hot exhaust gases a smooth exit without the constrictions found in crush-bent pipes. This added flow decreases back pressure and will actually increase the horsepower of your 3.8L or 3.6L engine! This is a bolt-on system that installs after the catalytic converter to keep your emissions legal. The dual split exits feature slash cut and rounded oval tips. Each kit includes all necessary mounting hardware for an easy bolt on installation.

Stainless Steel Cat-Back Exhaust System	Part #
07-14 Wrangler 2-Door & 4-Door, Kit	17606.75

EXHAUST SPACER KIT

Jeep® moved the exhaust forward on the 2012 Wrangler. Unfortunately, on Jeeps® with 2.5" or more of lift that means their front driveshaft is liable to make contact with the exhaust Y-Pipe melting the CV boot and causing the driveshaft to fail prematurely. The Rugged Ridge® Exhaust Spacer Kit for 3.6L Wranglers helps move the Y-pipe further back and increases the amount of front suspension travel from 2.5 to over 5.5", thus saving your driveshaft. The spacers install on the flanges between the front headers and Y-pipe.. The great thing is the kit is easy to install and does not require permanent modification to the exhaust. Hardware included. Backed by Rugged Ridge's® exclusive three-year limited warranty.

Exhaust Spacer Kit	Part #
Exhaust Spacer Kit by Rugged Ridge, 12-14 JK Wrangler (w/ 2.5-Inch + Lift) NEW	17606.76

COLD AIR INTAKES

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque.

Rugged Ridge® Cold Air Intake Systems	Part #
07-11 Wrangler 3.8L	17750.06
12-14 Wrangler 3.6L NEW	17750.07

STAINLESS HEADERS

Our custom Exhaust Headers are engineered to deliver improved performance. The 3.8L isn't a bad motor it just needs more air to "breathe" properly. Each complete kit includes manifolds, gaskets, hardware, clamps and easy to read instruction sheets.

Stainless Steel Headers	Part #
07-11 Wrangler w/3.8L Engine, Each	17650.53

THROTTLE BODY SPACER

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1/2" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air, producing more horsepower and torque. Solid aluminum construction.

Throttle Body Spacer	Part #
07-11 Wrangler 3.8L	17755.02
12-14 Wrangler 3.6L NEW	17755.03

LOW MOUNT

PRE-FILTER

HIGH MOUNT W/ RAM INTAKE

XHD MODULAR SNORKEL

Dusty Trails Rides and Deep Water Fordings. –Anyone who takes their rig off-road is likely to encounter these conditions. The new Modular XHD Snorkel System from Rugged Ridge® relocates the venerable stock air intake location to help reduce dust clogged filters and the risk of hydro-locking your engine. It is also the first snorkel designed with the modular functionality of a Pre-filter Low Mount and Ram High Mount air intake design. Unlike other snorkels, you don't have to give up flexibility for functionality. Not only did we engineer our snorkel to allow the windshield to fold and doors to be removed, we built it for use with our dual battery tray, windshield light bar and windshield light mounting tabs... Because what good is having a snorkel to cross the river, if you have to leave your lights and the dual battery (to power your winch) on the other side? Note: Windshield light mounting tabs only compatible with low mount.

The Modular XHD Snorkel System comes standard with the Pre-filter Low Mount. The Pre-filter Low Mount relocates the air intake to just below the windshield and draws cool air from outside the hot engine compartment. The optional Ram High Mount design allows the air intake to be extended up an additional 21" to the top of the windshield. The two air intake mounts are easily interchangeable to give you the modular functionality best suited to your needs. The system is manufactured from premium thermoformed plastic, mandrel bent aluminum and hi-temp silicone connection hoses. Built in manual drain valves channel away excess water to prevent it from entering the intake system. It installs with minor modification to the fender, but without the major cutting and surgery that other kits require. The new lower air cleaner box installs in place of the factory unit, so you don't have to "hack and tap". Just attached the factory upper air box, chose from the Pre-filter Low Mount or Ram High Mount design and go! Patent #'s D687,071 & D687,072.

SYNTHETIC AIR FILTER

Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! Rugged Ridge® performance high flow filters are made from a synthetic fabric and not cotton. Cotton filters are made porous and must be oiled to trap dirt and debris. But that oil reduces air flow through the filter and it can become easily clogged. Our filters are woven from synthetic fabric to allow maximum air flow and particulate filtration. Because our filters never need oiling, they can be cleaned easily with water instead of degreaser, reducing the cost of maintaining the filter over the lifetime of your vehicle. No oil = No fuss, no mess and improved performance!

Air Filter
